REMARKS

Applicants hereby confirm the election of Group I, claims 1 and 4-10 for examination in this application. The remaining claims, claims 2 and 3, are presently canceled without prejudice or disclaimer of this subject matter thereof.

The Examiner has rejected claims 1 and 4-10 under 35 U.S.C. § 112, first paragraph, for not complying with the enablement requirement. The Examiner has stated that is not clear that the Deposits of CAstV-2 under accession number I-2932 at the CNCM meet the criteria set forth MPEP 608/01 (p)(C), items 1-3.

In reply to the rejection of 35 U.S.C. § 112, first paragraph, Applicants' attorney hereby declares:

I, William M. Blackstone, attorney for Applicants, affirm on information and belief that chicken astrovirus type 2 (CAstV-2) has been deposited under the requirements of the Budapest Treaty with the International Depository Authority at the Collection Nationale de Cultures de Microorganisms of the Institute Pasteur, 25, Rue du Docteur Roux, F-75724 Paris CEDEX 15 FRANCE, on September 13, 2002, and has been granted accession number I-2932. All restrictions on availability to the public of the material will be irrevocably removed on the granting of a patent and the material has been deposited under the conditions that ensure access to the material will be available during pendency of the patent application to one determine by the Commissioner to be entitled thereto under 35 CFR 1.14 and 35 U.S.C. § 122. Further, it is believed that the deposited material will be stored at the CNCM with all necessary care to keep it viable and uncontaminated for at least five years following the most recent request for the provision of a sample and, in any case, at least thirty years after the date of the deposit or

for the enforceable life of the patent, whichever is longer.

On behalf of Applicants and Assignee, I acknowledge the duty to replace the deposit should the depository be unable to furnish a sample when requested due to the condition of the deposit.

I further declare that all statements made herein of my knowledge are true and that all statements made on information and belief are believed to be true, and that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the instant patent application or any patent issuing thereon.

Submitted herewith is a copy of the Budapest Treaty Deposit Receipt from the CNCM and a copy of the Viability Statement indicating that the microorganism deposited was viable.

In paragraph two on page three of the Specification it is disclosed that the chicken astrovirus type 2 of the present invention was deposited under accession number I-2932 at the CNCM.

In view of the above it is believed that the claims 1 and 4-10 are in condition for allowance. Favorable action is solicited. Should the Examiner consider that a conference would be helpful in advancing the prosecution of this application, she is invited to telephone Applicants' attorney at the number below.

Applicants do not believe that any other fee is due in connection with this filing. If, however, Applicants do owe any such fee(s), the Commissioner is hereby authorized to charge the fee(s) to Deposit Account No. 02-2334.
